WORKING TOGETHER

Marking their 12th year of collaboration, Porta Romana and Tord Boontje present Botanica, a collection that brings Tord's signature fairy tale themes of flora and fauna to life. Handcrafted and hand finished, it features a customisable six-downlight ceiling fixture, a wall light and the striking pendant, £1,644, available in soft, nature-inspired finishes like Brinyal with Blush.

Heating up

Interior design studio Todhunter Earle has partnered with fireplace expert Thornhill Galleries to unveil a debut collection, blending 25 years of design expertise with over a century of craftsmanship. The collection features five chimney pieces, including this French style Elmsett in Arabescato marble, from £10,000, combining elegant proportions, skilled design and high-quality finishes for both contemporary and classic interiors.
